Date: Immediate

Duration: 6 months, with an aim to extend

Reimbursement: Interns are offered financial reimbursement for expenses (relative to your personal circumstances up to £800/month in case of full-time commitment)

Level of effort: Full-time position

Location: Remote/Worldwide

About the Cambridge SupTech Lab

The Cambridge SupTech Lab accelerates the digital transformation of financial supervision to foster resilient, transparent, accountable, sustainable, and inclusive financial sectors.

The Lab catalyses the integration of innovative technologies and data science into supervisory processes to address enduring and emerging challenges in the rapidly evolving financial landscape. Through the Lab, financial authorities have championed the adoption of advanced suptech solutions to address pressing issues such as financial crime, fraud, exclusion, climate change enablers, consumer protection, artificial intelligence biases, and the supervision of fintech and digital assets.

Our global, multidisciplinary team partners with financial authorities' executives, supervisors, and data scientists to craft solutions across the entire innovation lifecycle – from data governance to AI-powered strategies, from the initial design to the full-scale deployment and scaling of cutting-edge suptech applications.

The Lab builds on the foundational intellectual property and knowledge developed through the RegTech for Regulators Accelerator (R2A) and Digital Transformation Solutions LLC, and operates at the Cambridge Centre for Alternative Finance (CCAF) at the University of Cambridge Judge Business School.

About the role

We are looking for a creative and motivated Graphic Design Intern to join our team. This role is perfect for someone with a strong design background who is eager to gain hands-on experience in a fast-paced environment. You will work closely with our communication and ecosystem teams to create visually compelling content for digital and print media.

Key responsibilities

- Assist in designing graphics for social media, websites, email campaigns, and marketing materials.
- Edit and enhance photos/videos using Adobe Photoshop and video editing tools.
- Collaborate on UI/UX projects using Figma and create engaging designs in Canva.
- Support the team in branding, illustration, and other creative tasks.
- Ensure consistency in design language across all platforms.
- Stay updated on design trends and suggest innovative ideas.

Requirements

- Proficiency in Adobe Photoshop, Figma, Canva, InDesign, Illustrator, and video editing software (e.g., Premiere Pro, After Effects, or similar).
- Strong portfolio showcasing design skills (include link in your CV).
- Basic understanding of branding, typography, and layout principles.
- Ability to work independently and meet deadlines.
- Excellent communication and teamwork skills.
- Understanding of social media best practices.

Candidates need to succeed in technical skills and to embody soft skills to achieve long-term success at Cambridge SupTech Lab:

- Emotional intelligence, communication & empathy – How is your ability to collaborate effectively with others and work in teams, build relationships, share ideas, and manage conflict?
- Creativity & problem-solving skills – Are you an analytical and critical thinker? Can you find creative solutions to problems?
- Adaptability & flexibility – Our working environment and culture requires you to be agile and adaptable to succeed in this role.
